

Procedures for ARPA

Several people have inquired what procedures we are going to incorporate in the appropriation hearing related to the Governor's ARPA proposal.

Lee Will, the budget director for the governor will first present the Governor's recommendations. Then the committee will open the public comment section in the order of the schedule listed with the governor's budget book. (see attached)

For each item we will ask for proponents, opponents, and Neutral testimony. At the end of each category i.e. 1) Public Health Emergency Response, 2) Negative Economic Impacts, and 3) Water, Sewer, Broadband we will entertain any additional comments or new proposals related to that category.

We intend on limiting testimony to three minutes per presenter. If you are a supporter of an item but would like to change, modify or add language to an item please have it in writing.
